Using the TIMKEN BEARING INTERCHANGE

- *The Timken Bearing Interchange lists manufacturer's part numbers, manufacturer name and the corresponding Timken part number.*
- *It is arranged in numeric-alphabetical sequence.*
- *Numbers are sorted ahead of letters in the same position; hyphens precede numbers or letters in the same position.*
- *Part numbers beginning with a number are listed in the first part of the book, part numbers beginning with alpha are listed in the second part.*

EXAMPLES:

- Characters are sorted from left to right, smallest to largest, A-Z.
Example:
67791 precedes 679
- Where there are hyphens in the part numbers, the hyphen is sorted before a number or letter in that same position.
Example:
000-981-9905 precedes 009810680
- When part numbers contain both numbers and letters, the numbers are sorted ahead of the letters.
Example:
10526 precedes 105C

TIMKEN

THE NAME THAT DELIVERS

BEARINGS

- Ball Bearings
- Clutch Release Bearings
- Cylindrical Bearings
- Cylindrical Repair Bearings
- Needle Bearings
- Tapered Bearings

Timken® is the registered trademark of
The Timken Company.
